FRAMING PURPOSE & PASSION

ABOUT

NAME:

Avalon Park Foundation

MISSION:

Inspiring positive community engagement through collaborative services and events.

THEIR STORY:

Avalon Park Foundation, Inc. is a 501(c)3 organization created to encourage friends and neighbors to take part in positively influencing the community through service.

OVERVIEW

Avalon Park Foundation contacted Nonprofit Enthusiast to make their organization compliant with nonprofit filing procedures. Through our initial consultation, the Nonprofit Enthusiast identified several foundational areas that could improve Avalon Park Foundation's organizational growth.

APPROACH

Beginning with our initial discovery call, we asked a series of questions to help stakeholders uncover their core values and priorities. Over the course of nine work sessions, we met with the board to develop documentation that would guide their processes, procedures, and initiatives.

CONCLUSION

With input from the board, the Nonprofit Enthusiast developed clear and actionable mission, vision, and value statements. With these organizational statements identified, we were able to help them articulate their three focus areas of community building, resource development, and youth and family services. Based on these identified priorities, we created a strategic plan and logic model to help members with day-to-day activities and future planning. Below is a sampling of the deliverables achieved through our services.
